

# Derrick & Amanda Sherer

Waunakee, Wisconsin

*Thank you so much for taking the time to learn more about us. We may not have met, but we deeply admire your decision to consider adoption. Our goal is to create a transparent and trusting relationship with birth parents.*

*We hope this profile gives you a good idea of our backgrounds, personalities, and what kind of parents we will be.*

# Our story

*We met through mutual friends at a local festival. After getting married in January 2018, we found out that a rare uterine abnormality would prevent us from having a successful pregnancy. We couldn't be more excited to start our family through adoption!*

*We have a solid relationship and our strengths really offset each other's weaknesses. In our free time we like to go on hikes, get together with friends and family, garden, and cook at home together. We try to live simply, stay productive, and appreciate the little things in life.*

# Our home

*We live in a small town just outside of Madison, Wisconsin. Our house is on a dead-end street in a quiet neighborhood with many other families. We have a fenced yard and a large garden. We share our home with three adorable pets: our dog, Gunner, and our cats, Po and Binx.*

# About Derrick

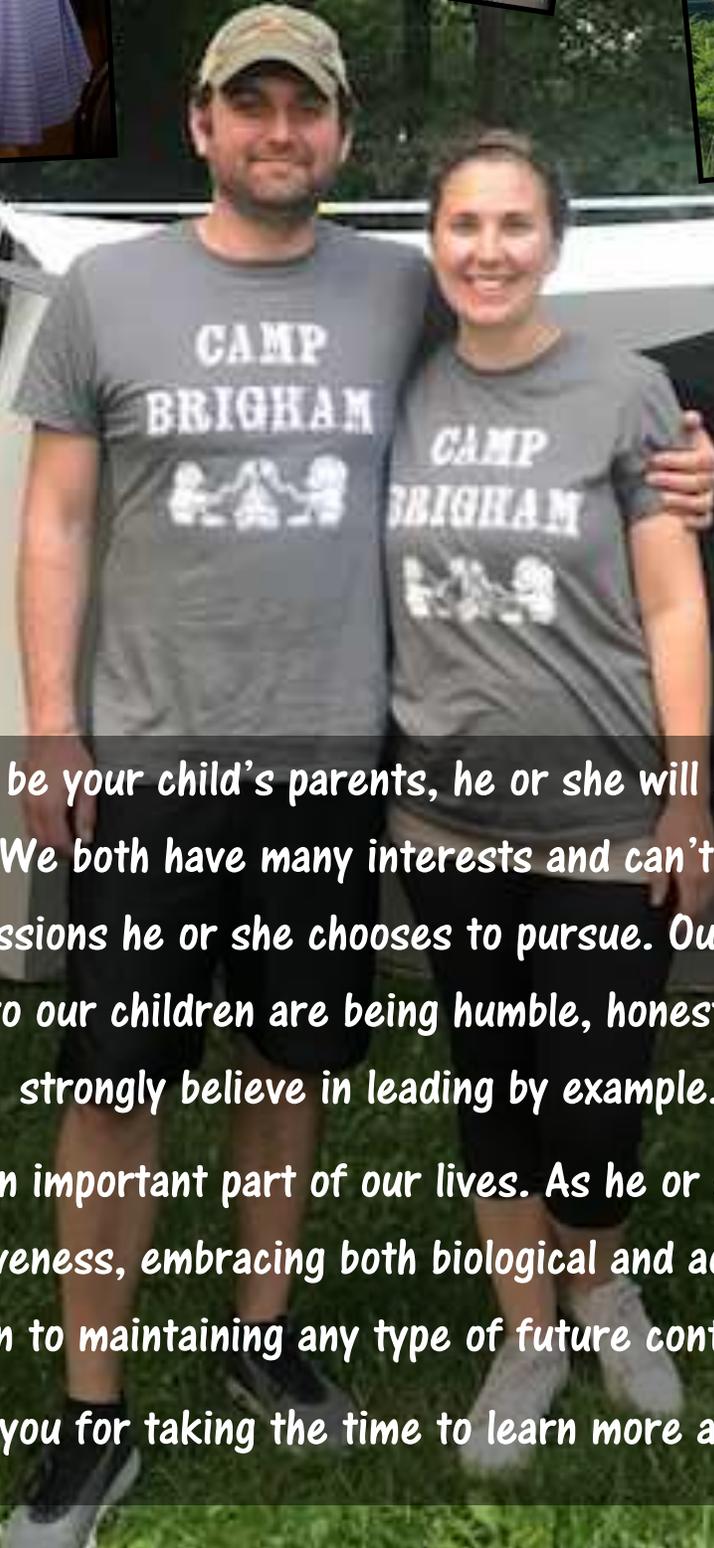

*Derrick is generous, understanding, and patient. He works as an Associate Research Scientist. He loves sports and plays in softball and ultimate frisbee leagues. He also enjoys gardening and yard work. He is always willing to listen and try new things.*

# About Amanda

Amanda is thoughtful, proactive, and adventurous. She works from home as a French translator. She loves planning parties, teaching fitness classes, and making crafts. She is a great leader and volunteers as a Court Appointed Special Advocate.

*If you choose us to be your child's parents, he or she will become part of a fun and caring family. We both have many interests and can't wait to support our child in whatever passions he or she chooses to pursue. Our main values that we hope to pass down to our children are being humble, honest, and respectful. We strongly believe in leading by example.*

*You will always be an important part of our lives. As he or she grows up, we will encourage inquisitiveness, embracing both biological and adoptive backgrounds.*

*We are open to maintaining any type of future contact with you.*

*Thank you for taking the time to learn more about us!*
