

Mindy & Brian

Hello There Mama,

The journey here couldn't have been easy. All the emotions, good, bad, and ugly are all valid. We appreciate you taking the time to consider us to be apart of your journey. We are a family of 3 looking to complete our family via adoption. We are passionate in the belief that love and support builds families. As parents, we fully believe in providing a home filled with love, respect, kindness, and some fun too.

We would be honored if you chose to share your journey with us. Hopeful big brother Liam also helped us write this letter.

Mindy, Brian, and Liam

How Two Engineers Fell In Love

*We both work in the engineering field and became good friends at work. We both valued **hard work**, but also **having fun** and **being silly**. After 2 years of friendship, it did not take us long to decide we were meant to be together. Our relationship was filled with **love of travel**, so it only made sense to get married on the beach in Los Cabos, Mexico!*

A little About

BRIAN

Career: Engineer

Words To Describe Brian:

- * Funny**
- * Compassionate**
- * Hard Working**

Brian's Favorites:

Show: Saturday Night Live

Food: Enchiladas

Sport: Basketball

I'm loving, outgoing and reliable. My heart and soul go into anything I put my mind to.

In the last 5 years, I've gone from living and doing things on my own, to being married, having a child, pets, and a house. And honestly, I wouldn't trade any of it for the world.

I put my family first and make sure that everything I do is to help better our family.

Career: Engineer

Words To Describe Mindy:

*** Generous**

*** Loving**

*** Passionate**

Mindy's Favorites:

Activity: Biking

Book: Jurassic Park

Food: Lasagna

I am driven and caring. I put my whole heart into everything I do. As a mom and wife, I prioritize quality time. Spending time learning and growing together is so important. We spend time reading, playing games, and going on walks together. When I'm not with my family, I'm an engineer at an aerospace company and science/engineering advocate in my community. My goal is to show kids that math and science doesn't have to be so intimidating and can be quite fun!

A Little About

MINDY

*Your heart is my
safe place.*

Our Interest And Hobbies

We love exercising, hunting , long walks and traveling as a family.

Big Brother Loading..... LIAM

Liam is the kindest, chill, yet energetic 9-year-old. **He is extremely excited to be a big brother.** He loves to be outside, but he is no stranger to cuddling on the couch watching movies. Liam has a long list of interests including legos, puzzles, board/video games, swimming, soccer, rock climbing, and fishing. While he is an expert at having fun, he also understands the importance of responsibilities. One of his main responsibilities is helping with the pets that he treats with **kindness and gentleness.**

Meet Our Fur Family

Our little furry pets are the cutest darn things in the whole world.

We have 2 dogs and 1 cat. T-Bone is our cat. He is 4 years old. Liam loves the cat with all his heart and has the responsibility of making sure he is always fed and taken care of.

Our dogs are Cocoa Bear (1 year old) and Buttercup (almost 1 year old). Cocoa Bear is smart, super handsome, loves to chase the ball and swim in the water. Buttercup loves to eat, nap, and bug T-Bone and Cocoa.

Where *We* Live

Our Little Piece Of Heaven

We live in a wonderful community in New Mexico. It is an oasis from the traditional desert you may expect. We live close to the river which means many shaded walking and biking trails. We spend a lot of time outdoors whether it is walking/biking the nearby trails, playing soccer in the yard, or expanding our vegetable garden. Our son's goal with his grandpa is to grow the largest pumpkin he can, which may go a bit better if the squirrels would stop taking them.

We also have a family cabin in northern New Mexico. It is a place for us to visit as a family with aunts, uncles, grandparents, cousins, and friends. It will be passed down for generations for the family to use. We spend time up there watching movies, roasting marshmallows, going sledding, and visiting nearby waterfalls, lakes, and rivers.

The People We Love

We are so lucky to have a *huge community of support from friends and family*. We both have large families and friends who we consider family. We can confidently say *life is never dull and filled with lots of love and laughs* with such an amazing extended support system.

A photograph of a woman with long brown hair laughing heartily, wearing a black jacket. To her left, the profile of a man in a maroon sweater is visible, also smiling. The background shows a blurred landscape with mountains under a cloudy sky.

*A Day Without
Laughter Is A Day
Wasted*

*FAMILY: A group that dreams, laughs, plays
and loves together. The most precious gift.*

Our Family Values

Liam will tell you we have simple rules, be safe and be kind. As a family we value kindness, respect, honesty and fun. As parents our goal is to provide our children with the skills and resources needed to accomplish their goals. We are not perfect, but as a family we love and support one another.

Our children will be loved tremendously and always treated with kindness and grace. Whatever your decision may be, know that we respect it and you.

Our Promises

We promise to love your baby unconditionally.

We promise to provide a home filled with love, kindness and respect.

We promise to support their passions and dreams.

We promise your baby will know their story and how much you love them.

We promise to give your baby unlimited hugs and kisses.

We promise to love your child for exactly who they are.

Love, Mindy, Brian & Liam

*You are the best thing I never
planned.*
